Hello, everyone. Welcome to April. Spring has arrived here in the Montreal region. Almost all of the snow has melted, birds are singing and busy scouting nesting sites, the grass is turning green and buds are popping up on the trees. It's a wonderful time of the year, but there is a forecast for snow for Easter!

The highlight of March was attending the 20th anniversary of the Winter SWL Festival in Kulpsville, Pennsylvania early in the month. It was great to catch up with so many old friends and a great opportunity to get together with lots of new people, all with a common interest in the radio hobby. Many of the almost 200 people in attendance are already subscribers to the Newsletter, but I did have the opportunity to sign up some new subscribers as well. Please join with me in welcoming all of them to their first edition of the Newsletter.

I mentioned last month that you would soon be receiving information about the annual Baillie Birdathon fundraiser. The special notice was sent out on March 18th. I am so pleased to report that many of you quickly responded with very generous donations, including a number of first time contributors. The Birdathon will be held sometime in mid-May so you still have plenty of time to get involved. Thanks again to all of you who have chosen to support this important cause.

The Monthly Special Zone for April features Earth Day, World Health Day, Easter and Passover.

Have a great month and please consider sending along a link or two to share with your fellow subscribers.

ICOM INTRODUCES D-STAR EQUIPMENT

D-STAR's protocols are opening up new possibilities for casual users, system builders, group leaders, and good, old ham radio experimentation. Just as high-speed digital networks led to brand-new ways to communicate, D-STAR brings digital systems to the amateur bands to create entirely new radio systems and services.

For a complete look at D-Star, Icom presents the following informative webpage at:

http://www.icomamerica.com/amateur/dstar/default.asp

The latest Icom D-STAR equipment, the IC-2820H, IC-91A and IC-91AD, the ID-1 and the ID-800H, are all available from Radio HF. Contact Radio HF for complete details.

RADIO SCANNER GUIDE

http://radio-scanner-guide.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

This website will help you select a scanner radio. It organizes the many new and used models on the market into six categories based on their features. You will first read about the various radio services police, fire, military aircraft, and more that you can hear on a scanner. Then, Radio Scanner Guide will tell you which of the six scanner categories have the features you need to hear your desired services. Next, you may view all radio scanner models in those categories.

VE3UU BRIAN JEFFREY WEB PAGE

http://www.ve3uu.com/index.html

VIA Brian Jeffrey, Carp, Ontario

Brian has been a long-time subscriber and supporter of this Newsletter, so it is only fitting to feature his life in radio,

through his personal webpage. In addition to learning more about his radio life, his operating station, etc. be sure to check out the sections on his page about The Diefenbunker, Canada's Cold War museum, and Brian's Arctic adventure on the DEWLine in the 1960s.

HF UNDERGROUND

http://www.blackcatsystems.com/radio/prc/

VIA Gilles Letourneau, Montreal, Quebec

This is a radio site, where people can actually make their own blogs or polls and of course post information on Pirate and Number station loggings. There are Antenna, Receiver and Pirate radio chat rooms also available.

BLANDX

http://www.blandx.com/

VIA An anonymous contributor!

If you combine comedy, satire and our radio DXing hobby, you come to Blandx. After over a decade hiding underground, the DX parody publication BLANDX has returned. I'm sure you'll get lots of laughs from exploring this site.

W1TP TELEGRAPH & SCIENTIFIC INSTRUMENT MUSEUMS

http://w1tp.com/

VIA Tom Perera, Hancock, Vermont

These online museums are dedicated to the preservation of telegraph and scientific history, lore, and instrumentation. These are no-frills museums designed for rapid and easy searching and downloading to facilitate research by serious collectors and historians but accessible to anyone who is interested in telegraph and scientific instruments. As a telegraph operator and collector for over 50 years, I have assembled a collection of over 3000 telegraph and scientific instruments and photographs. I am always looking to acquire or photograph very old and unusual keys and instruments!!

MUSÉE DES ONDES EMILE BERLINER

http://www.berliner.montreal.museum/site/

VIA Sylvain Monfette, Montreal, Quebec

The Musée des ondes Emile Berliner is dedicated to the heritage of the audio industry. Open to the public since January 24, 1996, the Musée des ondes Emile Berliner is different from most of the other Museums in Quebec in that it is one of the rare institutions dedicated to the history of the technology of sound. Note that this is a bilingual English/French webpage.

INTERNATIONAL BEACON PROJECT

http://www.ncdxf.org/beacons.html

VIA Sheldon Harvey, Greenfield Park, Quebec

The Northern California DX Foundation in cooperation with the IARU, constructed and operates a worldwide network of high-frequency radio beacons on 14.100, 18.110, 21.150, 24.930, and 28.200 MHz. These beacons help both amateur and commercial high-frequency radio users assess the current condition of the ionosphere. The entire system is designed, built and operated by volunteers at no cost except for the actual price of hardware components, shipping costs, and so on. Learn more about his project on this interesting web page.

HF FAX

http://www.hffax.de/

VIA Sheldon Harvey, Greenfield Park, Quebec

There are many facets of radio communications. One of the most fascinating is Image Communications such as Facsimile, Wefax and Slow Scan TV (SSTV). This page is dedicated to this aspect of Image Communications. The reception of Radio fax, Wefax, Press fax, Photo fax and amateur SSTV radio stations is a child's play now. Inexpensive software such as WXSat and JVComm32 for sound cards, or JVFAX with a simple converter, connect to a (SSB) radio receiver allows you to receive facsimile services and SSTV from stations all over the world.

MICROPHONES

http://www.coutant.org

VIA Stan Horzepa, QST Surfin' column editor

This site is intended to be an educational resource for information about older microphones and related equipment.

MICROPHONE CONNECTIONS

http://homepage.ntlworld.com/rg4wpw/date.html

VIA Stan Horzepa, QST Surfin' column editor

This web page assembled by Roy Frettsome, G4WPW, uses photos and schematics to document the proliferation of microphone connections used by the various radio manufacturers.

NEW HORIZONS NASA'S PLUTO-KUIPER BELT MISSION

http://pluto.jhuapl.edu/

VIA David Moore, Morro Bay, California

Planetary exploration is a historic endeavor and a major focus of NASA. New Horizons is designed to help us understand worlds at the edge of our solar system by making the first reconnaissance of Pluto and Charon - a "double planet" and the last planet in our solar system to be visited by spacecraft. Then, as part of an extended mission, New Horizons would visit one or more objects in the Kuiper Belt region beyond Neptune.

ENDANGERED SPECIES
